Run the Atecou Toolkit and the Atecou Client. Type the following commands in the command line

What is Atecou Toolkit and Atecou Client

The Atecou Toolkit helps you to create working parts and assembly instructions for your drawings. It is very easy to create working drawings, as you can simply drag and drop working parts on the drawings in a matter of minutes. The Atecou Client allows you to view, document and share your assembly instructions.

How to use the product

To use the Atecou Toolkit:

1. Start the Atecou Toolkit and click New
2. After choosing "Atecou Toolkit" click Next
3. Type the name of your project (ex. Atecou 1085)
4. The Atecou Toolkit will use the project name to determine the template
5. After selecting a template click Next
6. Click Finish to continue

To use the Atecou Client:

1. Start the Atecou Client and click New
2. After choosing "Atecou Client" click Next
3. Type the name of your project (ex. Atecou 1085)
4. The Atecou Client will use the project name to determine the template
5. After selecting a template click Next
6. Click Finish to continue

How to use the keygen

1. Run the Atecou Toolkit and click Load project or start it from the menu
2. Choose the Atecou Toolkit
3. Click Setup
4. Click Generate license key
5. Type your license key
6. Click Continue
7. Click Yes to continue
8. Click Save

If the Toolkit is not registered you can do so by clicking Register now

You can also use the Atecou Keygen to register the Atecou Toolkit
