
BIOLOGIA MOLECOLARE DEL GENE WATSON PDF

James D. Watson, Cold Spring Harbor Laboratory. Tanya A. Baker, Massachusetts Institute of Technology. Stephen P. Bell, Massachusetts Institute of Technology. "You are very kind," Professor Watson purred. "In that case, let me finish. It doesn't surprise me that you're so surprised. I am surprised myself," he continued. "Why are you really surprised? I say that some of these works have been published. I say I can't show you the originals. I say that you can take my word for it. Why? Because I don't want you to believe me. I don't want you to take my word for it. I don't want you to believe me. I don't need you to believe."
