Technical Field The disclosure relates to mounting apparatuses, and particularly to a mounting apparatus for a rotatable positioning device. 2. Description of Related Art A rotatable positioning device, such as a disk driver, frequently comprises a circuit board, a printed circuit board (PCB), or a rotatable chip, which is rotatable relative to a fixed casing of the disk driver. The circuit board and the PCB are assembled to the casing by screws or rivets. However, the screws or rivets can be easily loosened and not fixed permanently. Further, the hard and sharp screwdriver needs to be used. Thus, the assembly process is time-consuming and not easy to be carried out. Therefore, there is room for improvement

within the art.Easy solutions for money problems are possible I don't really want to start an argument on this topic, but I've begun to notice a lot of people that are struggling, or are actually, in pretty dire situations. These people have usually put themselves in a situation where they have no other choice but to ask for money, usually asking one of the following: My landlord My husband's work My friend My family … What I've noticed is that they all have one thing in common: They are already in debt, and they need immediate help – either a quick loan or a bill that they desperately need to be paid. I'm sure a lot of you are in a similar situation, or have been. There are lots of people 3e33713323
