As long as humankind has walked the face of the earth, dark entities have been lurking in the shadows - from the creatures of myth and folklore to the realms of horror and science fiction, beings have been lurking in the darkness. Now, the infamous Shadow will finally step out into the light. Shadow's story is a thrilling adventure of discovery. Shadows can be good or evil, real or imaginary, and their shadows expand in all directions. The resulting shadow-space is wide and deep. With game scenarios and missions stretching to over 200 square miles, the world is only as big as Shadow's imagination. Shadow's story also introduces a cast of new heroes: the detective story of the hero is used to a new form, in which the player himself controls a hero as he sifts through clues and background information, conducts interviews, breaks into homes and offices and pursues his own trial and error path through the deep... A group of bandit-themed characters are being hunted by members of the Albuena Noble family. Can you rescue them and find the key to unlock their jail? Gameplay What is Lunatic Fringe? From the creators of the award-winning game Ignis fatuus comes a beautifully designed game that completely redefines the adventure genre. In Lunatic Fringe, you play as a thief called a 'Lunator' who is trying to help the people escape from the smothering, high-security Albuena castle. This multi-layered game brings together exploration, character progression, combat, inventory, crafting, customization, stealth, strategy, gathering and stealth. As you complete missions you will unlock new characters that you can use in free roaming and combat missions. In between exploration and combat you will be looking for tools, enemies and clues to help you unlock the castle's secrets.
