She had not slept. She ran to the King's chambers to tell the King about the eruption. The Queen, who was resting after childbirth, stirred as the Queen's maid came running in. "The eruption has erupted again. Get up quickly!" The Queen did not move. But she thought to herself, "The baby is a boy." She stood up. "I'll go with you to the city." The baby was a boy, a handsome boy. The King was thrilled. Even though the Queen was unable to give him a name yet, the King insisted to name him after his father. He loved his father dearly. "You should think about it carefully," said the Queen, worried. "It's almost one year after that an infant should be..." "Nonsense!" the King replied. "Let's name him after his father." The Queen looked deeply into the King's face. But she did not speak. The King turned around and left the baby's room. He took a scroll from his coat pocket and read it. The Queen came in. "Yes, I'll go." The King raised his head in surprise. "But, the eruption!" "I'm going. I'm going now!" the Queen said, getting closer to him. "But the baby is still being nursed. I haven't prepared a bath yet

-Game: "EIDEn Ring Dragon's Crown 2.3.2" Original Post: "I like the design of the world" Sun May 05 2019 -Game: "EIDEn Ring Dragon's Crown 2.3.2" Original Post: I like the design of the world. The design of the village is nice. It looks like a real village. The tower in the village is also very unique. -Game: "EIDEn Ring Dragon's Crown 2.3.2" DongJun Park 4 years agofrom South Korea Thank you! WOW, I was so worried about the character creation part. They could probably gather some monsters but then they probably wouldn't be able to provide the story with it. I guess these guys are really good. Fuyuki Sakura 4 years ago Author Hi DongJun, thank you for your comment. I am not a fan of character creation. That is why I waited a long time to play games that just develop the story without wasting my time doing something I dislike. I believe there are some games that use character creation as a way to create a unique story to the players. But I believe the game needs to have the story itself to lure players in. If the story is not compelling, you can always change it later on but you may need to do some research to find the right one for your liking. The Elden Ring Guild is very good at helping people to develop their story. To see some of their great works, you can go to their website. Many of their games have stories that are interesting and memorable. Those are your type of games. I hope that helps you. Good luck, Hi Wörman, thank you for your comment. I really like your videos. They are really well organized and each video is worth watching. I think that this is a great tool that you have developed for your channel. I am glad you like the game. It is a great game. I am glad that I share some of your passion. Keep up the great job. I hope to see more of your videos in the future. Luz 4 years agofrom Sweden Great article, very good presentation and bff6bb2d33

Fantasy World A vast world where open fields with a variety of situations and huge dungeons with complex and three-dimensional designs are seamlessly connected. As you explore, the joy of discovering unknown and overwhelming threats await you, leading to a high sense of accomplishment. Character Customization System In addition to customizing the appearance of your character, you can freely combine the weapons, armor, and magic that you equip. You can develop your character according to your play style, such as increasing your muscle strength to become a strong warrior, or mastering magic. Character Advancement System Even if you have only just begun your adventure, you will be able to experience and enjoy new events in the game. Style of Living System You will be able to experience an exciting tale with a variety of environments and an unprecedented character growth system, which will make you feel comfortable while you engage in the game. Evaluation System You will be able to express your own opinions through evaluations after your travels. World Map Map system that automatically recognizes the current location and automatically displays the nearby spots in the map. The world map is a great way to view the current location, catch monsters, and execute quests and challenges. Actions Map The Actions map displays the routes that you can travel at the time of the last checkpoint. You will also be able to see where monsters are located. Auction System The Auction system lets you fight for loot while you are on your travels. • Combining Missions and Quests There are missions and quests that can be accessed from the in-game map. • Power of Impactful Events You will be able to enjoy the world map or story by switching between missions and quests. • Variety of Missions The missions and quests will let you explore a wide world where you will be able to access an exciting story while you travel. • Similar to Other RPG Games The maps in the game are virtually reconstructed to fit the final development of the game, and the game world and activities are designed in similar ways to other popular RPG games. • A Great Level Designing System There are a variety of maps in the game, each with a story. When you think of them as levels, the missions and quests should be played in a thrilling way in which every experience is captured. Moreover, the system is designed so that you can enjoy an exciting story by deciding how to play your character
