And yes there is, and it can be shown.. Hello Guys,. Two kids one sandbox original videogolkes zip Syncsort: smooth and even rendering of a line of faces. Syncsort is a dynamic display method that is fully digital and runs in real time on a PC computer. The method easily enables display of any type of black and white line of faces and employs a Lissajous-style update pattern to form overlapping, congruent faces. The method yields smooth even rendering of a line of faces and has an advantage over other digital display methods in that it is readily applicable to human faces. The application of this method to the three-dimensional display of faces has been reported here. UNPUBLISHED
