Jericho Rose is a cyber-noir adventure for 4 to 5 characters of Seasoned rank or Higher. The Six Hundred Trilogy is a collection of interconnected 'book' types that focus on a single character (or a single group of characters) through six major event styles. It is organized like a series, with each book detailing the character's conflicts within its style of play. The purpose of this game, Jericho Rose, is to tell the tale of the Six Hundred through the coming-of-age drama that is a setting and genre staple. A full-length 'book', Jericho Rose follows a group of characters in

the Six Hundred (seasoned or higher) who survive the aftermath of a catastrophic attack on their home. They are all separated by trauma, fear and loss, but they all knew Lorna Jericho, and they are going to be damned if they let her go. In this 'book', you will be drawn in as the self-described "ghetto vampire" Elise Tubb, working for the city's Vice division, and the daughter of a missing android engineer. You'll be separated from your girlfriend Caitlin Tubb and compelled into a dangerous, secret assignment. It will also put the lives of key characters at risk. The Six Hundred Trilogy is made for storytellers - it is not a "GM-lite" style game. All of the information presented to you through play will be of use to the GM, and it will be up to you to use that information to plot your story. You will have the freedom and flexibility to run this game your way. Key Features: * Six to 10 hours of gameplay * 56 uniquely crafted events * Nine unique character types * Playable species, technology and magic; magic can be used to modify your characters if you wish * Uncover an incredible mystery; in

the wake of a world-wide catastrophe, two detectives pursue the truth while amidst a raging war between factions. Jericho Rose can be played on your Mac, PC or Linux (Android will be available soon). It can also be played in a web browser and read using the FREE Fantasy Grounds Desktop client. We look forward to hearing what you think of this game, and we hope you can play Jericho Rose whenever you like. The Vietnam War is the most significant event in the world in the first half of the 20th century, and it changed the course

of the entire history of the planet for the next half-century. The Vietnam War was a war between the Communist North and the United States of America. The conflict has left many questions unanswered. "Vietnam War" is a flight simulator taking you right into the heart of the conflict, a time when the emotions were strong and the people were moved beyond endurance. This is a historical simulation, not a pure flight simulator. Take part in a real historical war, find your way to the goals of the main characters and help them make the right choice. All to help you and your family. The drama is like a slow-moving train in a long tunnel. It will be a long and hard ride, but you will not miss the events at the beginning and at the end. But even if the end is not happy, the world will be changed forever. As the saying goes "It is not the end of the war, but it is the beginning of the history of peace".

Sperm bank faces possible closure An English sperm bank could be forced to close after a drop in demand led to spiralling debts. Mads Lundkvist told a Swedish court that it would have to close. The Soverans Fertility Clinic is calling in the administrators and creditors as it faces a shortfall of 300,000 Swedish kronor (\$42,000). The bank said it had had to freeze IVF treatment as there was "no public demand" for such treatments. It was not immediately clear how many men have paid deposits for sperm to be banked in the clinic, which is based in the Swedish town of Vasteras. The clinic was established in 1989 by Lundkvist and his partner, and has since banked in excess of 400,000 sperm. It opened for routine sperm collections in 1990, and began treating men with congenital diseases in 1996. It then expanded its services to include help with fertility problems and vasectomy reversals. The clinic's services were incorporated into the city's health care plan in 2006. Sven-Erik Jonsson, chairman of the city's health and social care council, said: "There has obviously been a question mark over whether it will be able to continue over the last couple of years. But this, of course, is
