full version download exist, what can I
do?.The Los Angeles Lakers won their
first NBA title in franchise history last
season, and a year later they're
standing on top of the mountain and
the weight of that title feels more
difficult to bear than they probably
expected. It's been a magical ride. But
the team won a title in part because of

the play of players like Jimmy Butler, Lonzo Ball, and the one who infamously had the team's LeBron James jersey "stolen", JaVale McGee. When it comes to the latter two, it feels like LeBron's going through the same pain that Kevin Durant is: he's figuring out how to deal with success, and it's not easy. "Every time I get a ring, I can't just let it be. I have to come back and keep trying and trying and trying. I did it the last two years, so why not try it again," LeBron told Lakers Nation recently. "Every time I get one of these pieces of hardware, I have to try to add to it. So that's just how I am. I'm going to keep working as hard as I can. I have a great team around me that has been more than helpful. The Lakers as a whole have a lot to be proud of after last season, but no one should be

surprised to learn that LeBron's been at the center of some of their greatest moments. Of course, James is the heart and soul of the franchise and always has been. "[He's a] player that's going to play until he's 40. We have no time to sit around and say 'I'm not going to come back and play another season' or 'I don't have enough time left to get another ring.'" We're approaching the end of a new c6a93da74d
