Q: Getting an index out of range error on a simple for loop in python3 I'm getting an index out of range error on a simple for loop but I can't figure out what I'm doing wrong. I'm really not sure where this is coming from and I couldn't find anything at all on google. I've never had this problem before. I'm using python3 on a Mac and running this through spyder. Here is my code: for x in range(0, 4): for y in range(0,5): for z in range(0,1): print(x,y,z) A: for x in range(0, 4): This runs your loop over the range [0,3] for y in range(0,5): This runs your loop over the range [0,2] for z in range(0,1): This runs your loop over the range [0,0] Your loop is in fact running the entire time as you defined it.

WASHINGTON—In a kind of religious homage to two of their biggest traditional influences, Massachusetts Sen. Elizabeth Warren unveiled a new plan Tuesday to ban all discussion of abortion within the party. “I realize some of you may have some questions, and I’m prepared to answer them as long as you swear, in the name of the Lord, that you will never think about abortion ever again,” said Warren, closing her eyes and addressing the Democratic National Committee in her best pastor voice while offering a benediction, and then declaring that she will only speak to matters of abortion if a DNC member pledges, “on bended knee, that he or she will not support the legal right to this painful and nefarious practice.” “And now we all just stand and listen in silence. Thank you, Jesus.” At press time, Warren was urging the DNC to invite Supreme Court Justice Clarence Thomas to lead the celebration of the Feast of Trump. AdvertisementShow full PR
