I want to set up a local repository, but after installing the add-apt-repository package, I have no idea how to proceed. Specifically, how do I install packages from repositories that have been added? A: First install the package via: sudo apt install add-apt-repository Now add your repositories using the command: add-apt-repository ppa:/ Example: add-apt-repository ppa:mojtaba/ppa See the link for more information on add-apt-repository Sen. John McCain's (R-AZ) daughter Meghan has apparently violated her father's will by coming out as a lesbian. "Without prying into her personal life, Meghan McCain has been struggling with a long-term depression; her family has been caring for her and hopes for her to get the treatment she needs," an McCain staffer told The Hollywood Reporter in a statement. "Meghan's family is her family."
